Dear Parents,

14th March 2018

This term the children have thoroughly immersed themselves into the world of dinosaurs! To celebrate the end of the topic and to deepen their learning even further we would like to invite your children into our dinosaur exploration world.

On Tuesday 27th March, we will be welcoming a dinosaur expert and his dinosaur friend into school. We will be seeing first-hand how dinosaurs moved and what they looked like in the flesh. We will also become explorers ourselves, using special equipment to dig for real fossils! We will be able to see close up what they looked like from millions of years ago.

This is an exciting opportunity and I am sure will be a very memorable experience for the children.

If your child does not normally attend Pre-School on this day, then please feel free to bring them to the session at no extra cost to their normal Pre-School hours.

Funding for this exciting day cannot be borne by the pre-school therefore we are asking for a contribution of £10.00 per family from all of our parents. Please send your contribution in a named envelope to either the class teacher or the school office.

Thank you for your continued support.

Kind Regards

Miss White
