St Clare Catholic Multi Academy Trust – Freedom of Information Policy

1. Introduction

- 1.1 Schools are committed to the Freedom of Information Act 2000 and to the principles of accountability and the general right of access to information, subject to legal exemptions. This policy outlines our response to the Act and a framework for managing requests.
- 1.2 This policy applies to everyone who is authorised by the trust to process any paper based or electronic system containing information provided for, owned, controlled or administered by the schools or centrally by the trust.
- 1.3 This policy applies to all information processed by, and on behalf of, the schools regardless of form. Requests under FOI can be addressed to anyone in the schools or in the trust central team, so all staff need to be aware of the person within school or in the central team who is responsible for responding to requests.

Please note that for schools, the timescales for responding to a valid request is 20 school days, or 60 working days if this is shorter.

2. Background

- 2.1 The information which the school routinely makes available to the public is included in the Publication Scheme. Requests for other information should be dealt with in accordance with the statutory guidance. While the Act assumes openness, it recognises that certain information is sensitive. There are exemptions to protect this information.
- 2.2 The Act is fully retrospective, so that any past records which the school holds are covered by the Act. The trust has a Retention Schedule as part of its Data Protection Policy that states the period of time different documents are retained for before being destroyed. It is an offence to willfully conceal, damage or destroy information in order to avoid responding to an enquiry, so it is important that no records that are the subject of an enquiry are amended or destroyed.
- 2.3 Requests under FOI can be addressed to anyone in the schools or in the trust central team; so all staff need to be aware of who to pass the request on to. Requests must be made in writing, (including fax, email, Facebook, Twitter or other social media used by the schools), and should include the enquirers name and correspondence address, and state what information they require.
They do not have to mention the Act, nor do they have to say why they want the information. There is a duty to respond to all requests, telling the enquirer whether or not the information is held, and supplying any information that is held, except where exemptions apply. There is no need to collect data in specific response to a FOI enquiry. There is a time limit of 20 school days excluding school holidays, or 60 working days if this is shorter, for responding to the request.

3. Scope

- 3.1 The FOI Act joins the Data Protection Act and the Environmental Information Regulations as legislation under which anyone is entitled to request information from the school.
- 3.2 Requests for personal data are still covered by the Data Protection Act. (DPA). Individuals can request to see what information the school holds about them. This is known as a Subject Access Request, and must be dealt with accordingly.

- 3.3 Requests for information about anything relating to the environment – such as air, water, land, the natural world or the built environment and any factor or measure affecting these – are covered by the Environmental Information Regulations (EIR). They also cover issues relating to Health and Safety. For example queries about chemicals used in the school or on school land, phone masts, car parks etc. would all be covered by the EIR. Requests under EIR are dealt with in the same way as those under FoIA, but unlike FoIA requests, they do not need to be written and can be verbal.
- 3.4 If any element of a request to the school includes personal or environmental information, these elements must be dealt with under DPA or EIR. Any other information is a request under FoIA, and must be dealt with accordingly.

4. Obligations and Duties

- 4.1 The trust acknowledges that as well as responding to requests for information, it is good practice to publish information proactively. This will be achieved through the schools' adoption of the Model Publication Scheme for schools which has been approved by the Information Commissioners Office. A guide to the information available from each school under the Model Publication Scheme can be found in Appendix 1 below.
- 4.2 The trust recognises their duty to provide advice and assistance to anyone requesting information. School or central trust staff will respond to straightforward verbal requests for information, and will help enquirers to put more complex verbal requests into writing so that they can be handled under the Act.
- 4.3 School or central trust staff will tell enquirers whether or not they hold the information being requested (the duty to confirm or deny), and provide access to the information in accordance with the law.

5. Publication Scheme

- 5.1 The Publication Scheme and the materials it covers will be available both in hard copy and on the trust and school websites.

6. Dealing with Requests

- 6.1 We will respond to all requests in accordance with the law.

7. Exemptions

- 7.1 Certain information is subject to either absolute or qualified exemptions as per current legislation.
- 7.2 When we wish to apply a qualified exemption to a request, we will invoke the public interest test procedures to determine if public interest in applying the exemption outweighs the public interest in disclosing the information.
- 7.3 We will maintain a register of requests where we have refused to supply information, and the reasons for the refusal. The register will be retained for 5 years.
- 7.4 Further information on the Public Interest Test and the circumstances under which absolute or qualified exemptions may be applied can be found at www.ico.org.uk

8. Charging

- 8.1 We reserve the right to refuse to supply information where the cost of doing so exceeds the statutory maximum, currently £450
- 8.2 In some cases we may need to pass on the direct cost of providing the information as a fee. In this case the fees will be calculated according to FoI regulations, and the person notified of the charge before information is supplied.

9. Responsibilities

- 9.1 The Chief Financial Officer is the nominated member of staff to coordinate enquiries for the trust and be a point of reference for advice and training. Enquiries at school are coordinated by Louise Clements, Headteacher.

10. Complaints

- 10.1 Any written (including email) expression of dissatisfaction about how the trust or the school has responded to a FoI request will be handled through the trust's existing complaints procedure which is available on the trust and school websites and will be shared upon request.

10.1.1 The review will be handled by someone not involved in the original decision if possible.

10.1.2 The Information Commissioner's Office recommends that public authorities carry out internal reviews within 20 working days. Under Environmental Regulations Information there is a legal requirement that internal reviews must be carried out as soon as possible and within 40 working days. The trust cannot charge for carrying out an internal review.

If the complaint requires that the original request and response be reviewed, based on the outcome the trust will:

10.1.3 If the outcome is that the information should be disclosed the trust will do this as soon as practicable.

10.1.4 If the outcome is that procedures within the school have not been properly followed, the trust will ensure that it reviews its procedures to prevent any recurrence.

10.1.5 If the outcome upholds the school's original decision or action, the applicant should be informed of their right to appeal to the Information Commissioner. More details of this can be found at www.ico.org.uk and complainants will be informed of this.

10.1.6 Appeals should be made in writing to the Information Commissioner's office. They can be contacted at:
